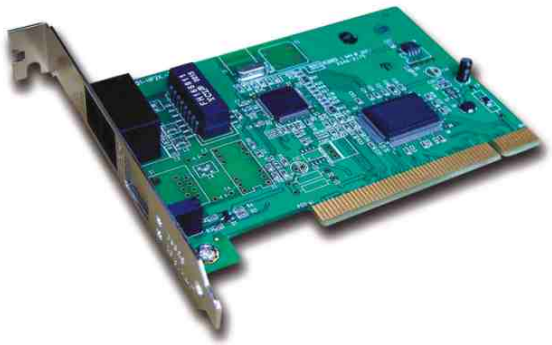
HP2000

PCI
1M HomePNA Adapter



General

The PCI 1M PhoneLine Network Adapter enables the instant connectivity to multiple PCs over a home's existing telephone lines.

You can share network-enabled printers, transfer files between computers, play network games, and more- no switches, hubs, or even any additional cables is needed. The network runs on standard home-grade telephone wires just like the ones you use everyday. Plus, it doesn't interfere with your normal phone use.

Features

- Connects to a network using your existing telephone line -- No additional hubs or network cables needed
- 1Mbps transfer rate over telephone lines
- HomePNA 1.0, 1.1 compliant
